

## Double Cone Ice

A double cone ice cream is two scoops of ice cream served in a single cone.

A double cone may also refer to:

- **Photoreceptors:** Two cone cells (color detecting photoreceptors) joined together are known as double cones. When the two members are the same, they are known as twin cones.
- **Ice cream:** A double cone of ice cream is two scoops of ice cream in a cone.
- **Science shop:** A double cone may also refer to a wooden double cone and a wooden cylindrical rod that can be used to demonstrate an anti-gravity motion.
