

Chocolate Cone

A chocolate cone is a sweet treat that can be made with chocolate, ice cream, or other ingredients:

- **Chocolate ice cream cones**

Made with chocolate ice cream and served in a cone, chocolate ice cream cones can be made with different types of chocolate, like milk, dark, or white. They can also be topped with crunchy chocolate-cereal nibs.

- **Chocolate-filled waffle cones**

These cones are filled with chocolate and can be a great snack for kids, at work, or on the go. They can be individually wrapped to keep them fresh and don't require refrigeration.

- **Chocolate cones with other ingredients**

Chocolate cones can also be made with other ingredients, like almonds, wafer biscuit, and milk solids. They can also be made with a chocolate sorbet and topped with cacao nibs.
